AWARDS DISTINGUISH INNOVATION AND EXCELLENCE, IDENTIFY NEXT-GEN PRODUCTS OFFERING GROWTH OPPORTUNITIES FOR INTEGRATORS

DALLAS—The Electronic Security Association (ESA) has announced the winners of the 2022 Electronic Security Expo (ESX) Innovation Awards, distinguishing innovation and excellence in the industry, and identifying the next-gen products and services that will offer significant opportunities for growth for integrator companies.

These products and services were selected by an independent panel of judges based on a specific set of criteria, including ingenuity, applicability, response to market need and more.

The 2022 ESX Innovation Awards Judging Panel, led by Mark Reimer of ADT, also included Michele Monheim, Customer Service Manager of Amherst Alarm, Inc.; Rodger Reiswig, Fellow & VP Industry Relations, Global Fire Detection Products of Johnson Controls; and Eric Widner, General Manager of LOUD Security. ESX is grateful to these judges for lending their time and expertise to this important program that recognizes forward-thinking ideas within the security industry.

We are proud to highlight next-gen products and services that create new opportunities for security professionals to offer their end users," said George De Marco, ESX chairman. "In addition, these winners offer innovative solutions for companies looking to effectively grow their revenues, improve the customer experience and maximize their profits."

ESX congratulates the forward-thinking companies behind these 22 breakthrough technologies and services for 2022.

ACCESS CONTROL/ID SYSTEMS

Gate/Door Operators
